AheadX QP530

AheadX™
QP530

QP530 is a hybrid wing UAV for reconnaissance job, QP530 Equipped with an advanced redundant navigation and flight control system, the QP530 is capable of fully autonomous takeoff, landing and operation, supports a variety of emergency protection functions. It has smart battery, power monitoring, structure monitoring, backupdatalink,3D ground station, cloud system and other functions.

Equipped with high-definition nacelle, it supports optical zoom 30 times of visible light, infrared, wide-angle and laser ranging functions, which can realize target identification/ tracking and intelligent search/lock and follow the target.

Technical Specifications

Aircraft

Take-off/Landing Mode	: Auto VTOL
Fuselage Length	: 1.55 m
Wingspan	: 3.0 m
Body Materials	: Glass fiber + carbon fiber + reinforced PVC
Max takeoff weight	: 17 kg
Motor System	: 4 MR motors +1 FW motor
Storage dimension	: 124*60*68cm
Max. Endurance	: 120 min
Cruising Speed	: 70~115 km/h
Wind Resistance	: ≤13.8 m/s
Practical ceiling	: 5500 m
Working Temperature	: -20℃~50℃
Hor. Positioning Accuracy	: 1cm+1ppm
Ver. Positioning Accuracy	: 2 cm
Heading Accuracy	: 0.2°

Reconnaissance and Surveillance

Flight/load performance is further optimized for reconnaissance and surveillance applications to meet the requirements of most scenarios. Meanwhile, automatic target identification/locking, geographical location locking, AR navigation, intelligent target search/follow flight and other functions are added to improve target search efficiency.

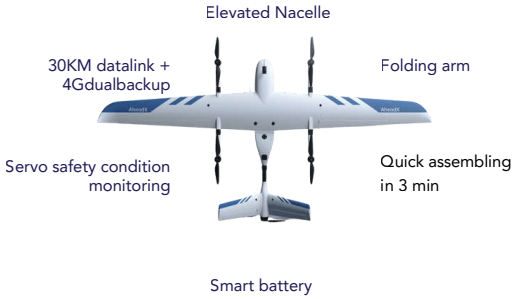

PG323
Visible Wide Cam

PG333T
Visible + Infrared Wide Cam

PG343TL
Visible + Infrared Wide + LiDAR

120 min
Flight Endurance

Up to 80 km
Long range transmission

Target
detection and tracking

Vertical
Take-off landing

TerraDrone

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
