PRECISION AGRICULTURE SPRAYING DRONE

AVIRO E16

A professional spraying drone providing high efficiency, durable, flexible and uniform spraying of fertilizers or psticides for plantations. E16 delivers high operation efficiency and cost saving with lower water and chemical waste. It ensures safety for your labors yet providing eficient land usage with up to 40times faster spraying compare to traditional method.

Technical Specifications

Aircraft

Number of Rotors	: 6 rotors
Diameter (unfolded)	: 1700mm
Height	: 750mm
Tank Volume	: 16 liters
Area Efficiency per flight	: up to 1.6ha
Effective Working Time	: 8 - 12 minutes
Maximum Flight Speed	: up to 10 m/s
Flight Radius	: up to 1.5km
Droplets Size	: 80 to 200 um
Nozzle Quantity	: 4, with adjustable flow speed
Spraying Speed	: 3 to 10 m/s
Spraying Height	: 2 to 4 meter above crop
Spraying Swath	: 4 to 6 meter
Battery Quantity	: 1 x 22000mAh 12S Smart battery
Auto RTH & Resume	: Supported, liquid/battery finished)
FPV with Night Mod	: Supported, with built-in LED lights
Pumps Quantity	: Dual brushless pumps
Flight Mode	: Manual, A-B, Waypoints, kml
Obstacle Avoidance	: Available as Add-on Option
RTK Support	: Available with RTK Base

Durable & Industrial Grade

Aviro E16 has one of the highest field -proven efficiency and mobility in the market today, yet cost effective It is built to withstand various harsh operating conditions and its RTK option providing centimeter accuracy waypoints operation. With built in contour following sensor, E16 can fly and follow the terrain of plantation with ease; and additional obstacle avoidance will ensure highest flight safety and reduce risk of crash due to environment or pilot errors.

Easy Control via Mobile Apps (Android) with Cloud Support

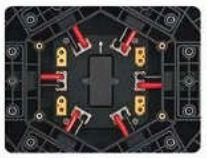

Single Strong Body Build

Waterproof

Large Tank Inlet

Integrated Power Supply

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
