C-Astral
BRAMOR C4Eye

The field proven BRAMOR C4EYE UAS line is suitable for operations where real-time or near real time video observation and surveillance capability is of utmost importance. With an endurance of up to 3 hours, a standard data and payload link of up to 40km LOS, or the optional MANET digital communications capabilities.

A myriad of other sensors, options and communications reach, capability and security extensions are available on these systems.

Technical Specifications

Aircraft

Max. take-off weight	: 9800 g
Max. flight time	: up to 2,5 hours
Flight range	: up to 180 km
Area coverage	: 2000 ha
Service ceiling	: Up to 4000 AMSL
Wingspan	: 290 cm
Structure	: Composite materials

Payloads

EYE-X HD7

EYE-X HD8

GAS

C3P Planning Software

Equipped with C3P (command, control, communications) planning software that provides superior situational awareness and safety of UAS operations through a user-friendly GUI and intuitive control. The C-Astral C3P will help you to plan and execute your UAV flight missions, control the flight parameters, and sensors in real time and collect and aggregate geospatial data.

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
