DJI AVATA INS

The DJI Avata INS is an innovative solution designed and developed by the skilled engineers at Terra Drone. It emerges from a comprehensive revamp of the original DJI Avata drone, aimed at addressing the numerous challenges posed by existing confined space inspection drones in the market. The Avata INS leverages the proven reliability and exceptional performance of the DJI drone series, thus ensuring optimal functionality in even the most challenging scenarios, including narrow, confined spaces.

Designed with an uncompromising focus on safety and quality, the DJI Avata INS embodies the ultimate tool for internal visual inspection within tight confines.

DJI AVATA INS

Technical Specifications

Aircraft

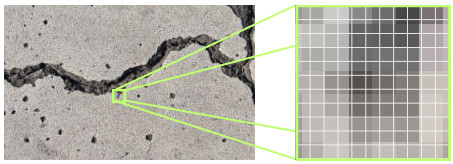

Max Dimension	: 180 mm
Min Space for Maneuver	: 250 mm (10") in Diameter
Take-off Weight	: 410 g
Max Flight Time	: Up to 18 minutes
Max Ascent Speed	: 6 m/s
Max Speed	: 8 m/s (Normal) 14 m/s (Sport) 27 m/s (Manual)
Max Wind Resistance	: 10.7 m/s (Level 5)
GNSS	: Available
Operating Temperature	: -10 to 40 degC
Operating Frequency	: 2.4 or 5.8 GHz
Max Transmission Distance	: Up to 10 km LOS
Camera Tilt	: -80 to +65 deg
Camera Sensor	: 1/1.7"
Effective Pixel	: 48 MP
Video Resolution	: Max 4K 60 fps/ 1080p 120 fps
Lighting Output	: Max 10k Lumens
Other Features	: Synchronized lighting 4-side anti-slip wheels Live-stream available

High Resolution for Better Clarity

By having an image resolution of 4000 x 3000 pixels and a minimum focus range of 0.6 meters from the surface, the drone can produce images with a resolution of 1 mm/pixel. This will be useful to identify small cracks & damages in a surface, allowing the inspector to carry out a better assessment & judgement with a better clarity.

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
