DJI
D-RTK 3

The new D-RTK 3 Multifunctional Station features advanced technology with high-performance antennas and receiver modules capable of tracking and processing data from major global satellite navigation systems. With support for multiple data transmission links, it can function as a base station, providing centimeter-level positioning for multiple drones simultaneously, or extend operational range in relay station mode.

Additionally, the rover station mode, integrated with the DJI Enterprise app and DJI Terra, offers a comprehensive solution for high-precision aerial surveying, ensuring safer and more accurate operations.

Technical Specifications

Dimensions	: 163 × 89 mm
Weight	: 1.26 kg
Tilt	: 8 mm + 0.7 mm/°
Altitude	: 6000 m
Convergence Time	: 20 mins
Satellite-Based Precise Point Positioning	: BDS B2b, GALILEO E6**, L-BAND**
GNSS Frequency	: GPS: L1C/A, L2C, L5 BDS: B1I, B2I, B3I, B1C, B2a, B2b GALILEO: E1, E5a, E5b, E6 GLONASS: L1, L2 QZSS: L1C/A, L2C, L5 L-Band
Antenna	: OcuSync 4 directional antennas× 4, 2T4R
Bluetooth	: Protocol: Bluetooth 5.1 Frequency: 2.400 GHz to 2.4835 GHz Transmitter Power (EIRP): <10 dBm

Multiple Ways of Calibration

Unlock Precision and Performance with D-RTK 3

The D-RTK 3 Multifunctional Station provides high-precision positioning with centimeter-level accuracy, making it an essential tool for mapping, infrastructure inspection, and 3D modeling. By leveraging advanced satellite tracking technology, it ensures reliable and precise data collection, even in challenging environments. With seamless integration into DJI Enterprise drones and software, this system enhances operational efficiency and delivers consistent results for professionals who demand accuracy in every mission.

Compatible with:

DJI Matrice 4 Series

Matrice 30 Series

DJI Mavic 3 Enterprise Series

Matrice 300/350 RTK

6500 mAh
Battery Capacity

RTCM3
Supported protocols to send and receive corrections

-20° to 55°C
Operating Temperature

67
IP Rating

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
