DJI
FLYCART 100

DJI FlyCart 100 is a powerful heavy-lift drone designed to transform aerial logistics. Capable of carrying up to 80 kg, it combines strong propulsion, advanced safety features, and intelligent automation to deliver goods efficiently and securely.

With DJI's O4 transmission system providing 20 km range, high-precision LiDAR for obstacle sensing, and an emergency parachute for added protection, FlyCart 100 ensures stable operations in demanding environments. Its modular design supports both cargo box transport and an automated 30-meter winch, giving operators the flexibility to adapt to different missions with confidence.

FlyCart 100 sets a new standard for aerial delivery, offering reliability, safety, and performance for real-world challenges.

DJI DELIVERY

Technical Specifications

Aircraft

Maximum Takeoff Weight	: 149.9 kg
Payload Capacity	: 80 kg (1 battery) 65 kg (2 battery)
Flight Range	: 26 km without payload
Maximum Altitude	: 6000 m
Altitude Payload	: 70 kg - 3000 m (1 battery) 50 kg - 3000 m (2 battery)
Weather Resistance	: IP 55
Transmission	: O4
Controller	: RC Plos 2
Software	: Delivery App, Delivery Cloud, PSDK Export-lite (3000W)
Operating Temperatures	: -20°C to 40°C
Battery	: DB2160, 41 Ah
Maximum Speed	: 20 m/s
Flight Time	: 18 m

Unrivaled Payload Power

With the ability to lift up to 80 kilograms, DJI FlyCart 100 redefines what is possible in aerial logistics. Its dual delivery modes, cargo box and automated 30-meter winch, allow operators to complete missions that were once out of reach, from moving heavy equipment on construction sites to delivering supplies in emergency zones.

This unmatched lifting capability ensures reliable performance where traditional drones fall short.

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
