DJI
M300 RTK

The Matrice 300 RTK is DJI's latest commercial drone platform that takes inspiration from modern aviation systems. Offering up to 55 minutes of flight time, advanced AI capabilities, 6 Directional Sensing & Positioning and more, the M300 RTK sets a whole new standard by combining intelligence with high-performance and unrivaled reliability.

The refined airframe and propulsion system design gives you a more efficient and stable flight, even in harsh conditions.

Technical Specifications

Aircraft

Weight (without batteries)	: 3800 g
Max. take-off weight	: 9000 g
Max. payload weight	: 2700 g
Max. flight time	: 55 min (without payload)
Area coverage	: 300 ha
Max. take-off altitude (ASL)	: 5000 m
Wind resistance	: 15 m/s

Multiple Payload Configurations

The camera unit is independent from the image processor, giving you the flexibility to select the ideal gimbal and camera system for every mission. With the ability to carry up to three payloads simultaneously and a maximum payload capacity of 2.7 kg, the M300 RTK enables 360-degree aerial imagery, multi-sensor monitoring over large areas, and complex tasks such as surveying and mapping.

Designed for versatility across various industries including oil and gas, the M300 RTK is an ideal solution for challenging inspection tasks. It supports high-precision visual inspections of critical infrastructure such as flare stacks, power lines, and more, delivering reliable data even in harsh environments.

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
