DJI
M350 RTK

An upgraded flagship drone platform, the Matrice 350 RTK sets a new benchmark for the industry. This next-generation drone platform features an all-new video transmission system and control experience, a more efficient battery system, and more comprehensive safety features, as well as robust payload and expansion capabilities. It is fully powered to inject innovative strength into any aerial operation.

Built tough, the Matrice 350 RTK features powerful propulsion, enhanced protection rating, and excellent flight performance, allowing it to effortlessly tackle a wide variety of challenges.

Technical Specifications

Aircraft

Weight (without batteries)	: 3800 g
Max. take-off weight	: 9000 g
Max. payload weight	: 2700 g
Max. flight time	: 55 min (without payload)
Area coverage	: 300 ha
Max. take-off altitude (ASL)	: 5000 m
Wind resistance	: 15 m/s

Flight-cost reduction

The M350 RTK's new TB65 battery has a 100% increased battery cycle count and can be charged up to 400 cycles, reducing the cost of a single flight. Its dual-battery system supports battery hot swapping and allows for multiple flights without powering off. Additionally, it has enhanced heat dissipation performance and an auto-heating system.

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
