DJI
MATRICE 400

As DJI's latest enterprise flagship, the Matrice 400 ushers in a new generation of aerial capabilities. Built with a refined flight system and smart sensing technology, this platform is tailored for high-stakes missions where precision and reliability are non-negotiable.

With seamless system integration and support for advanced automation, it empowers professionals across industries to execute complex operations with ease. Whether on land or at sea, the Matrice is designed to rise to the challenge anytime, anywhere.

Technical Specifications

Aircraft

Weight (without batteries)	: 5040 g
Max. take-off weight	: 15800 g
Max. payload weight	: 6000 g
Max. flight time	: 59 min (without wind)
Max. take-off altitude (ASL)	: 7000 m
Wind resistance	: 12 m/s
Operating Temperature	: -20°C to 50°C

Payloads

H30 Series

Power Line Level Obstacle Sensing

With rotating LiDAR, mmWave radar, and low-light vision sensors, the Matrice 400 offers precise 360° obstacle sensing, capable of detecting thin power lines at speeds up to 25 m/s. It ensures reliable performance in complex environments, enhancing safety for critical missions like power inspections, BVLOS flights, and industrial operations.

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
