DJI
Matrice 4 Series

The DJI Matrice 4 Series, including the Matrice 4T and Matrice 4E, is an advanced commercial drone designed for professional applications such as surveying, mapping, inspection, and public safety. Equipped with night vision, a high-precision laser range finder, and a powerful imaging system, this drone enhances efficiency and data accuracy.

The Matrice 4T excels in thermal imaging and low-light operations, while the Matrice 4E is optimized for high-precision mapping and 3D modeling. With a rugged design and cutting-edge technology, the Matrice 4 Series is built to tackle various industrial challenges.

Technical Specifications

Aircraft

Takeoff Weight (with propellers)	: 1219 g
Max Take-off Weight	: Standard Propellers: 1420 g Low-Noise Propellers: 1430 g
Max Flight Time (without wind)	: 49 min (standard propellers)
Max Payload	: 200 g
Max Wind Speed Resistance	: 12 m/s
Max Flight Distance (no wind)	: 35 km (standard propellers)
Max Altitude	: 6000 m
Operating Temperature	: -10°C to 40°C

Camera

Video resolution	: 4K: 3840 × 2160@30fps FHD: 1920 × 1080@30fps

Thermal Camera

Frame Rate	: 30 Hz
Video Resolution	: 1280 × 1024@30fps
Temperature Measurement Range	: -20°C to 150°C

Laser Rangefinding

Accuracy	: ±(0.2+0.0015D)

Gimbal

Stabilization System	: 3-axis

Superior Stability with O4 Transmission

The O4 Enterprise Transmission on the DJI Matrice 4 Series offers a range of up to 25 km and a 20 MB/s download bandwidth, ensuring a more stable connection and high-quality video transmission. This feature is crucial for applications such as mapping, inspection, and search and rescue operations, where communication stability is essential.

Matrice 4E

Matrice 4T

112x

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
