NDTCCS

DJI
H30 SERIES

The all-weather, multi-sensor flagship H30 Series integrates five major modules—a wide-angle camera, a zoom camera, an infrared thermal camera, a laser range finder, and an NIR auxiliary light. Employing cutting-edge intelligent algorithms, it revolutionizes perception and imaging standards, transcending the limitations of day and night vision. This makes it effortlessly suitable for a variety of operations, including public safety, energy inspection, water conservation, and forestry.

Technical Specifications

Aircraft

Weight	: 920±5 g
Dimensions	: 170×145×165 mm (L×W×H)
Operating Temperature	: -20° to 50° C (-4° to 122° F)
Storage Temperature	: -20° to 60° C (-4° to 140° F)
Stabilization System	: 3-axis
Wavelength	: 905 nm
Measurement Range	: 3-3000 m
Hybrid Optical Zoom	: 34x
Max Zoom	: 400x
Sensor Camera	: 1/1.8-inch CMOS, Effective Pixels: 40 MP
Video Resolution	: Single Shot: 3840×2160@30fps, 1920×1080@30fps Night Scene: 1920×1080@25fps, 1920×1080@15fps, 1920×1080@5fps

Smarter Multi-Scenario Operations

In Smart Capture mode, the H30 Series zoom and wide-angle cameras automatically assess the brightness of ambient light and the dynamic range, and apply intelligent image algorithms. This ensures the output of photos with natural transitions between light and dark and rich details, even in environments with high dynamics, strong light, or low light.

In conditions such as smog or high atmospheric humidity, the H30 Series zoom camera employs a new Electronic Dehazing function [11] to enhance image clarity. It offers low and high dehazing levels to suit different operational environments and requirements.

Supported Aircraft

Matrice 400

Matrice 350 RTK

Up to 34× Optical Zoom & 400× Digital Zoom

Enhanced Night Vision

More Powerful Infrared Performance

54
IP Rating

Smarter Multi-Scenario Operations

More Reliable Information Sync and Retention

TerraDrone

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
