Building Cleaning using Drone!

The industrial landscape requires a strong focus on cleanliness and maintenance. Introducing Drone Power Wash at Terra-NDTCCS, an advanced aerial cleaning service designed for high efficiency, precision, and versatility. Ideal for cleaning building exteriors, solar panels, insulator strings, and tall structures, this service combines cutting-edge tethered technology with aerial capabilities to ensure safety, improve operational efficiency, and enhance sustainability. Drone Power Wash provides a reliable and effective solution for all your cleaning needs.

Technical Specifications

Aircraft

Weight (without batteries)	: 3800 g
Max. payload weight	: 2700 g
Max. flight time	: 55 min (without payload)
Max. take-off altitude (ASL)	: 5000 m
Wind resistance	: 15 m/s

Payloads

Orion AP3-P3

Dimensions	: 936 x 146 x 192 mm / 37 x 6 x 8 inch
Weight of P3 Device	: 1.3 kg / 2.86 lbs
Max Length of Hose	: 100M (328 feet)
Max Spray Pressure	: 13MPa
Operating Temperature	: 0~50°C/0~122°F
Speed	: 6M\s
Protection	: IP55
Wind Resistance	: 6M\s

Designed for Better Operation

The Orion AP3-P3 Pliabot® Aerial Tethered Cleaning System is compatible with drones that have a payload capacity of 3-10kg (6-22lb), offering efficient high-pressure cleaning for building exteriors, solar panels, insulator strings, and tall structures. Remote operation replaces manual high-altitude tasks, reducing risks. The pliable gimbal adapts to eliminate sway from lateral operations and spray recoil, ensuring safety. Additionally, the laser real-time distance detection module ensures stable spraying with a maximum range of 3 meters.

Highly-Efficient

Hassle Free

Versatile

1 min Quick Installation

7.5㎡/min Quick Cleaning

Supports Tethered Water Supply Operations

Seamless Flight Control Integration

8MPa Maximum Pressure

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
