EIGER
DELIVERY DRONE

The Eiger is our flagship long-range delivery drone, built for demanding logistics missions. With a range of up to 100 km, a 3 kg payload capacity, and the ability to withstand winds of up to 15 m/s, it performs reliably both day and night. It features a unique vision-based Precision Landing system, intelligent sensor fusion combining data from cameras, GNSS, and IMUs, and a multi-band Detect and Avoid capability that ensures safe and dependable BVLOS operations even in challenging environments. Integrated with the RigiCloud platform, the Eiger enables autonomous logistics, optimized route planning, and full compliance with modern airspace regulations.

Technical Specifications

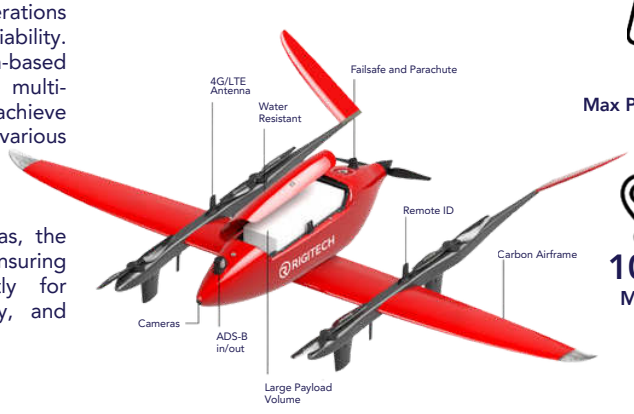

Aircraft

Maximum Payload Weight	: 3 kg
Maximum Range	: 100 km
Dimensions (L x W x H)	: 270cm x 164 cm x 42cm
Maximum Take-Off Weight	: 21 kg
Maximum Altitude	: 3000 m AMSL
Operating Temperatures	: 0°C / 40°C
Cruise Speed	: Multicopter : 6 m/s Fixed Wing : 29 m/s
Maximum Flight Speed	: Multicopter : 10 m/s Fixed Wing : 35 m/s
Climb Speed	: Multicopter : 3.5 m/s Fixed Wing : 3.3 m/s
Maximum Wind Resistance	: Multicopter : 12 m/s Fixed Wing : 15 m/s

Precision and Safety in Long-Range BVLOS Operations

The Eiger redefines long-range drone operations with its balance of precision, safety, and reliability. Built for BVLOS missions, it combines vision-based Precision Landing, smart sensor fusion, and multi-band Detect and Avoid technology to achieve accurate navigation and smooth landings in various environments.

Even in challenging weather or remote areas, the Eiger maintains stable flight performance, ensuring every mission runs safely and efficiently for professionals who value distance, accuracy, and consistency.

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
