QySea
Fifish W6

The FIFISH PRO W6 is an industrial-grade underwater ROV platform with a depth rating of 350 meters. It features a newly patented 6 Q-motor system that offers greater power efficiency, enhanced thrust, and improved stability in strong currents. Its innovative modular design allows for quick part replacements and easy swapping of accessories with different functions, enabling users to perform a wide range of underwater tasks efficiently and with precision.

Technical Specifications

Aircraft

Dimensions	: 700mm x 469mm x 297mm
Weight	: 20kg
Thrusters	: 6 Thrusters (FIFISH Q-Motor Technology)
Speed	: Maximum 4.0 knots (2m/s)

Battery

Dive Time	: 6 Hours (Depending on usage scenario)
Rated Capacity	: 388.8Wh
Charge Voltage	: 25.2V, 1.5 Hour Quick Charge

LED Lights

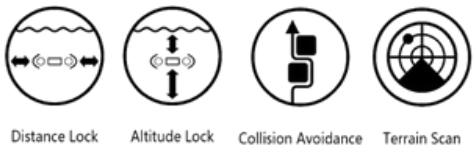

Brightness	: 1000 Lumen LED
CCT	: 5500 K (Correlated Color Temperature)
Beam Angle	: 120°
Levels	: 3 Brightness Levels

Camera

Sensor	: 1/2.3" SONY CMOS
Pixels	: 12MP
ISO Range	: 100 - 640 In Auto / Manual
Photo Format	: JPEG, RAW in DNG
Video Resolution	: 4K UHD : 25/30 fps 1080P FHD : 25/30/50/60/100/120 fps 720P HD : 25/30/50/60/100/120/200/240 fps
Video Format	: MPEG4 - AV/H.264, HEVC/H.265

Sonar Array System-Distance And Altitude Lock

The Sonar Array system is QYSEA patent algorithm which can realize the distance lock, altitude lock, collision avoidance and contour scanning functions. These innovative functions enhanced the ROV user experience and reduce the complicated operation of ROV. Very useful underwater tools can be used to perform various task in complex underwater environment.

Enhanced Underwater Awareness System

350m
Max Depth

4 Konts
Max Speed

-10°C ~ 40°C
Temp Range

6 Hours
Depend On Different Working Mode

TerraDrone

NDTCCS

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
