NDTCCS

Urban Medical Delivery Drone

The Urban Medical Delivery Drone is an advanced autonomous platform built to support fast and reliable transport in urban environments. Designed for medical and emergency logistics, it ensures safe and efficient delivery of critical supplies such as blood samples, medicines, and laboratory equipment between hospitals, clinics, and laboratories.

Equipped with smart navigation, power redundancy, and a built-in parachute system, the Urban Medical Delivery Drone maintains stable performance both day and night, in rain or clear skies. With a payload capacity of up to 9 kg and a flight range of 10 km, it provides an ideal solution for time-sensitive missions that demand precision, safety, and consistency.

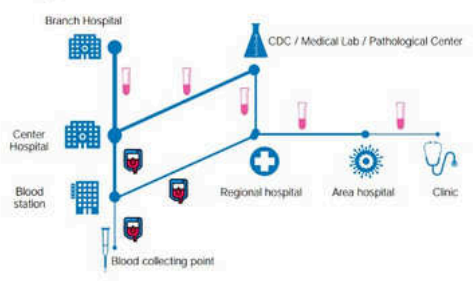

Technical Specifications

Aircraft

Maximum take-off weight	: 25 kg
Maximum range of full load	: 10 km
Symmetrical motor wheelbase	: 1550 mm
Maximum effective volume	: 42 L
Cargo size	: 46 x 3 x 27 cm
Working temperature range	: -10 ~ 55 °C
Communication link	: 5G
Hover Accuracy	: ±0,1 m

Medical Delivery Application

In the medical field, the Urban Medical Delivery Drone provides a fast, accurate, and reliable solution for transporting blood samples, laboratory specimens, medicines, and medical instruments between hospitals and laboratories. Its all-weather capability and real-time tracking ensure timely delivery even in challenging urban environments, improving emergency response and overall medical supply efficiency.

Smart Delivery System

72 km/h
Cruising Speed

10km
Maximum Distance

6 Levels
Wind Tolerance

9 kg
Maximum Loading

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
