TerraDrone

NDTCCS

Unifly UTM Platform

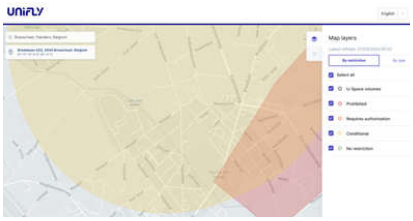

The Unifly UTM Platform helps drone and UAM operators manage the entire flight process from preparation and planning to validation, execution, and reporting. Through a simple web-based interface, operators can access real-time airspace information and ensure safe, compliant operations.

For complex missions, the platform provides advanced tools for flight planning, live monitoring, conflict resolution, and post-flight analysis, allowing operators to manage every flight efficiently and safely from start to finish.

Explore > Prepare > Plan > Validate > Fly > Resolve > Report

Key Features

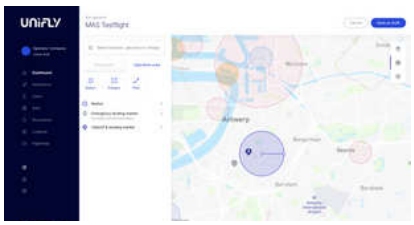

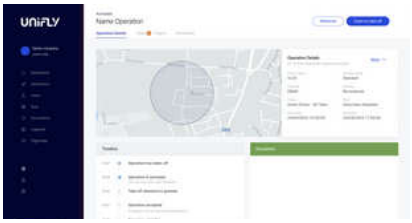

Explore

Access real-time airspace maps with advanced NOTAM insights.

Prepare

Set up accounts, drones, and crews securely and efficiently.

Plan *(Pre-tactical)*

Create and organize detailed flight operations with ease.

Fly *(Tactical)*

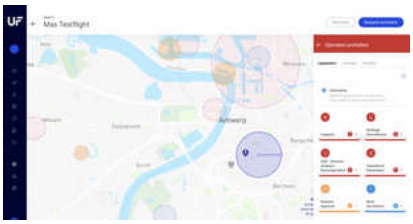

Monitor live missions with full situational awareness.

Real-Time Airspace Info

Smart Authorization

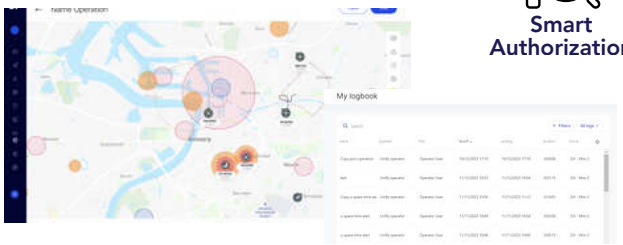

Validate *(Pre-tactical)*

Ensure compliance with airspace, weather, and regulations.

Resolve & Report

Manage in-flight conflicts and review post-flight data to ensure safe and reliable operations.

ABOUT US

Terra Drone is one of the biggest drone service providers in the world offering cutting-edge solutions for aerial survey, infrastructure inspection, data analysis, etc. Terra Drone is headquartered in Japan and has presence in all parts of the world through its partner network of group companies and technology collaborators.

NDT Corrosion Control Services Co. (NDTCCS) was established in 1975, with Head Office in Dammam, Kingdom of Saudi Arabia with branches in other GCC countries. NDTCCS offer our services all over in the GCC with man power strength of around Three Thousand plus (3,000+) technicians & inspectors.

Collaboration between Terra Drone & NDTCCS has been started since 2019. By combining the strong presence of NDTCCS in the region with the innovative drone technology & solution that Terra Drone possesses, the partnership was aimed to introduce drone technology as an innovative solution to many inspection challenges being present in the region. Since then, several initiatives have been carried out to promote the solution, especially in Abu Dhabi (UAE).
